PROFESSIONAL SUMMARY

Experienced Full Stack Developer with **2.5 years of expertise** in Javascript, Typescript, Node.js, React.js, Microservices, MongoDB, MySQL, MERN Stack, Docker & AWS delivering robust full-stack solutions.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Redux, HTML, CSS, TailwindCSS, Bootstrap
- **Backend & Databases:** Node.js, Express.js, RabbitMQ, REST & GraphQL, MySQL, MongoDB
- **Programming Languages:** JavaScript, TypeScript, Python, Java, C++, Shell Scripting
- **DevOps & Tools:** Git, GitHub, Docker, AWS

WORK EXPERIENCE

Biztoso

Apr 2025 – Jun 2026

Backend Developer

Bangalore, India

- **Built and owned the platform's real-time chat backend** using Node.js, Socket.IO, Redis, and MongoDB with delivery acknowledgements (single/double ticks), read receipts, media sharing, reactions, one-way/two-way message deletion, and reliable real-time synchronization.
- **Designed and implemented the payment and billing system**, integrating the **Cashfree** payment gateway, handling secure transaction processing, webhook-based payment verification, and automated invoice generation.
- **Led development of the multilingual search suggestion system using Meilisearch**, enabling low-latency search queries and improving content discovery across the platform.
- **Built backend infrastructure for short-form video (Reels) streaming**, implementing media processing pipelines that convert uploaded videos into **HLS (M3U8)** format for adaptive and smoother playback across varying network conditions.
- **Optimized MongoDB schemas and complex aggregation pipelines** by introducing compound indexes, query restructuring, and efficient projection strategies to significantly reduce query latency.
- **Developed and maintained the platform notification system** using **Firebase Cloud Messaging (FCM)** and **OneSignal**, enabling automated, event-driven, and scheduled push notifications from backend services.

Freelancer.com

Sep 2023 – Mar 2025

Freelancing

Remote

- **Profile Link:** <https://www.freelancer.in/u/ishansinghcms>
- **Developed React Native, Node.js, and React web applications** for freelance clients, including an image/video processing Android app with an admin panel ([Link](#)) and a responsive restaurant website ([Link](#)).

Betsol

Jul 2022 – Aug 2023

Associate Software Engineer

Bangalore, India

- **Developed an event-driven microservices architecture** for a hospital web application using RabbitMQ and Node.js to handle asynchronous tasks such as notifications, record updates, and appointment scheduling, resulting in improved system scalability and responsiveness for real-time operations.
- **Led the development of a Launch Dashboard** for [Zmanda](#) (a backup and recovery application) using D3.js and Highcharts.js to monitor backup and recovery operations, streamlining processes and improving operational efficiency.
- **Improved React application performance and responsiveness** by optimizing API request handling, reducing redundant network calls and ensuring efficient resource utilization during high-frequency user interactions.

EDUCATION

JSS Academy of Technical Education

2018 – 2022

Bachelors of Engineering, Computer Science and Engineering (BE-CSE)

Bangalore, Karnataka
